PROFESSIONAL PROFILE

I am a software developer specializing in architecture and web development, with experience in backend and frontend. I focus on providing efficient technological solutions and I am always looking for improvement to stay up to date with the latest trends in the sector.

EXPERIÊNCIA

Developer - Art&Reformas

[2023] - [2024/07]

I designed and developed a real estate renovation website, working on the frontend with responsive Next.js, based on design prototypes, and on the backend using Node.js with Nest.js and Prisma.

Implementation of a user login system, allowing the creation and sending of quotes by email and management on the website, with information saved in a MySQL database.

Creation of a chat for communication between users and the company, using WebSockets (Socket.io) for real-time interactions.

Projects, freelance and study

- Development of web applications, including frontends with React and Next.js, and backends with Node.js (Nest.js, Prisma), Java (Spring Boot) and Go.
- Systems integration with MySQL, PostgreSQL and MongoDB databases.
- Using AI to automate processes and increase efficiency.
- Experience in algorithms in C/C++ through challenges,
- katas and development of software and shared libraries.
- Projects in web3, blockchain and smart contracts using JavaScript, Go and Solidity.
- Learning in Application Architecture and Demand Management.
- Development of frontends with a focus on pleasant design, integrating libraries such as GSAP and Three.js.

EDUCATION

Technologist in Systems Analysis and Development

FATEC (College). Prof. João Mod • 2024-2027

- Frontend Development (React, HTML, CSS)
- Backend development (C#, NodeJs)
- Database development (MySQL)
- Game Development (Unity, C++)
- Embedded software (Arduino/C++)
- Linux operating systems, Terminals and servers.
- Artificial intelligence
- Algorithms

HABILIDADES

- Frontend design & responsivity
- Backend, API's, Data structure
- Algorithms, programming logic
- Web3/Blockchain
- Organized code and versioning
- Teamwork;
- Creative thinking;
- Fast learning
- Problem solving

IDIOMAS

- Português - Native
- Inglês - Fluent
- Espanhol - Basic

MAIN STACKS

- React,
- Node.Js
- C/C++
- NextJs
- Java/Spring
- GoLang
- MongoDB / MySql/Postgres
- PHP
- GraphQL
- AWS
- Docker

Courses

2017 - Fisk English Course

2018/2019 - KNN English Course

2022 - SENAC IT course

Technical Course I.T/SAD

ETEC.Professor Alfredo de Barros Santos • 2023-2024

- Frontend Development (HTML, CSS, JS)
- Backend development (Java, PHP)
- Database development (MySQL)
- Embedded software (Arduino/C++)
- Linux operating systems, Terminals and servers.
